I am a third-year undergraduate with extensive knowledge of SE and am committed to hard work and results. I am looking for a challenging Associate that allows me to translate my knowledge and internship knowledge into real-world software development skills that provide positivity. Growth in both me and the company.

## 1. Work Experience

- Back Office (Abans PLC, Head Office) - 2018/08/31 – 2019/01/31
- Software Engineer Intern (Surge Global) - 2022/03/01 – 2022/08/31 – Mern Stack  
We started the Threat Management Dashboard project as a new project. In that project, I collaborate with frontend and backend development, and I maintained errors and bugs handling of [hub.surge.global](https://hub.surge.global) web application. The project was developed using React, Node, Express, Redux, TypeScript, AWS, MongoDB, Bulma (CSS UI) Netlify, Bitbucket (VCS), and including UI design (Figma).
